

MS Otto Sverdrup

MS Otto Sverdrup will go into refurbishment in 2020. Among other significant upgrades, the vessel, formerly known as MS Finnmarken, is due to get battery packs installed between 2020 and 2022. MS Otto Sverdrup is named after a famed Norwegian sailor and Arctic explorer who crossed Greenland with Fridtjof Nansen in 1888. Sverdrup also served as an advisor on the construction of the Arctic explorer ship Fram in 1892. Between expeditions, he captained Hurtigruten's DS Lofoten on a route between Hammerfest and Svalbard in 1897.
